

<b>Name</b>	<b>Organization</b>	<b>Country</b>
Abdul Aleaf	National Semiconductor	United States
Abhinav Saxena	SGT / NASA Ames Research Center	United States
Aida Rezaei	Queen's University	Canada
ALEX TENHAVE	NLR	Netherlands
Alexander Feldman	Delft University of Technology	Netherlands
Alexandra Coppe	University of Florida	United States
Amitabh Barua	Concordia University	Canada
Andrew Smith	General Atomics	United States
Andy Hess	The Hess PHM Group	United States
Anibal Bregon	University of Valladolid	Spain
Antonio Ginart	Impact Technologies	United States
Ash Thakker	Global Technology Connection	United States
Ashok K Koul	Life Prediction Technologies	Canada
Ashraf Tantawy	Vanderbilt University	United States
Asma Ben Zakour	2MoRO LaBRI	France
B. Samanta "Sam"	Villanova University	United States
B.K.N. RAO	COMADEM International	United Kingdom
Barbara Brown	NASA Ames Research Center	United States
Bart Cotton	Data Power Monitoring Corp.	United States
Behzad Moslehi	Intelligent Fiber Optic Systems	United States
Betty Glass	Lockheed Martin Space Systems Company	United States
Bhaskar Saha	MCT / NASA Ames Research Center	United States
Bill Ho	Northrop Grumman	United States
Bo Ling	Migma Systems, Inc.	United States
Bob Ferrell	NASA Kennedy Space Center	United States
Bob Price	PARC	United States
Bojan Markovic	Alta Scuola Politecnica	Montenegro
Brad Pierskalla	Ingersoll Rand	United States
Brian Hollingshaus	Electric Power Research Institute (EPRI)	United States
Brian Keith Bailey	University of Tennessee	United States
Bruce Woollard	Raytheon	United States
Bruno Leão	Embraer	Brazil
Bruno Maino	AgustaWestland	Italy
Bryan Donovan	Impact Technologies	United States
Cam Truong	NAVSEA	United States
Carl Byington	Impact Technologies	United States
Cesar Sharper	OSD AT&L DDR&E/SE	United States
Cecilia Larrosa	Stanford University	United States
Chetan S Kulkarni	Vanderbilt University	United States
Chris Cooper	Frontier Technology	United States
Chris Dodson	AFRL/RVSS	United States
Chris Hickenbottom	Honeywell	United States
Chris Lynn	Ridgetop Group	United States
Chris Minnella	Impact Technologies	United States
Chris Pomfret	Treble One/MFPT	United States
Chris Stecki	PHM Technology	Australia
Cliff Wenrick	Boeing	United States
Curtis Reichenfeld	Curtiss Wright	United States
Dan Sartor	United States Air Force	United States
Daniel Avis	AFFTC	United States

Daniel Gilbertson	Boeing	United States
Daniele Cavaglieri		Italy
Danny Parker	Miltec Research & Technology	United States
Darren Mair	General Dynamics Land Systems-Canada	Canada
Dave Bodden	Lockheed Martin Aeronautics	United States
Dave Stewart		United States
David A Garcia	MCT / NASA Ames Research Center	United States
David Followell	Boeing	United States
David He	University of Illinois - Chicago	United States
David Jensen	Oregon State University	United States
David M. Pack	CECOM LCMC	United States
David Stark	SEMATECH	United States
Dejan Markovic	Alta Scuola Politecnica	Montenegro
Devon McAllister	HBM nCode	United States
Dipl.-Ing Tom Neuheuser	Lufthansa Technik AG	Germany
Dmitry Luchinsky	MCT / NASA Ames Research Center	United States
Don Estes	Utility Helicopter PMO	United States
Douglas Brown	Georgia Institute of Technology	United States
Dryver Huston	University of Vermont	United States
Dustin Garvey	Baker Hughes	Germany
Duy-Huan Pham	U.S. Army - AMRDEC	United States
Edward Balaban	NASA Ames Research Center	United States
Elias Anagnostou	Northrop Grumman	United States
Elias Weldetsadik		United States
Emma Kelly	University of Nottingham	United Kingdom
Eric Bechhoefer	Goodrich	United States
Eric Hamby	Xerox Corporation	United States
Fangji Wu	University of Cincinnati / IMS Center	United States
Federico Canova	Politecnico di Torino	Italy
Fernando Figueroa	NASA Stennis Space Center	United States
Flavien Peysson	Univ. Paul Cezanne - CNRS	France
Francesca Licandro	Politecnico di Torino	Italy
Francois Hemez	Los Alamos National Laboratory	United States
Freeman Rufus	Global Technology Connection	United States
Gabor Karsai	Vanderbilt University	United States
Gary Larivee	General Dynamics Land Systems-Canada	Canada
Gautam Biswas	Vanderbilt University	United States
George Vachtsevanos	Georgia Institute of Technology	United States
Gilbert Martinez	Woodward HRT	United States
Ginger Shao	Honeywell	United States
Giovanni Jacazio	Politecnico di Torino	Italy
Giuseppe Randazzo	Politecnico di Torino	Italy
Giusy Cannone	Politecnico di Torino	Italy
Greg Kacprzynski	Impact Technologies	United States
Hai Qiu	GE	United States
Hassan Al Atat	University of Cincinnati / IMS Center	United States
Henk du Plessis	SAAB Avionics	South Africa
Howard Blair	NAVAIR	United States
Ian Jennions	Cranfield University / IVHM Centre	United Kingdom
Ignacio Perez	Office of Naval Research	United States
Indranil Roychoudhury	SGT / NASA Ames Research Center	United States
Indu Saxena	Intelligent Optical Systems	United States

Ingolf Mueller	Stanford University	United States
Irem Tumer	Oregon State University	United States
Israel Lopez	University of California, Davis	United States
J.B. Schroeder	Air Force Research Lab	United States
Jacek Stecki	PHM Technology	Australia
Jamie Coble	University of Tennessee	United States
Jason Hines	ARL - Penn State University	United States
Jason Li	Medtronic Inc.	United States
Jay Lee	University of Cincinnati / IMS Center	United States
Jean Claude Rames	MBDA	France
Jeannie Holmes	Impact Technologies	United States
Jeff Bird	National Research Council	Canada
Jeff Thomas	Raytheon	United States
Jerome LACAILLE	Snecma	France
Jerry Nickelsburg	UCLA Anderson Forecast	United States
Jessica Plaza	NAVAIR	United States
Jim Morgan	DRS TEM	United States
Jin Young Suk	Chungnam Nat'l Univ	Republic of Korea
Jingjing He	Clarkson University	United States
Joao Paulo Gomes	Embraer	Brazil
Joe Ramos	Northrop Grumman	United States
Joel Luna	Frontier Technology	United States
Johan de Kleer	PARC	United States
John Madsen	Northrop Grumman	United States
John Pan	Curtiss Wright Controls Electronic Systems	United States
Johnny Wright	Goodrich	United States
Jonathan DeCastro	Impact Technologies	United States
Joo-Ho Choi	Korea Aerospace University	Republic of Korea
Jose M Perotti	NASA Kennedy Space Center	United States
Jose R. Celaya	SGT / NASA Ames Research Center	United States
Juan Liu	PARC	United States
Kai Dettmann	University of Duisburg-Essen	Germany
Kai Goebel	NASA Ames Research Center	United States
Karl Reichard	ARL - Penn State University	United States
Karthik Kappaganthu	Villanova University	United States
Kartik Mehta	Parker Aerospace	United States
Katherine Olson	U.S. Army AMRDEC	United States
Keith Calhoun	Rolls-Royce	United States
Kenneth Hicks	Jet Propulsion Laboratory	United States
Kim Wilkins	General Atomics	United States
Kristin Spencer	U.S. Army	United States
Kuldeep Lonkar	Stanford University	United States
Louis Redding	Cranfield University	United Kingdom
Luis Hernandez	GSS	United States
Lukas Kuhn	PARC	United States
Lunwei Zhang	Stanford University	United States
Manzar Abbas	Georgia Institute of Technology	United States
Marcos E. Orchard	University of Chile	Chile
Mark Johnson	University of Central Florida	United States
Mark Pappakostas	Acellent Technologies	United States

Mark Redding	Impact Technologies	United States
Mark Walker	General Atomics	United States
Masoud Rabiei	University of Maryland	United States
Masoumeh Haghpanahi	University of Maryland	United States
Massimo Sorli	Politecnico di Torino	Italy
Matej Gašperin	Jožef Stefan Institute	Slovenia
Matt Ballew	Southwest Research Institute	United States
Matt Hansen	Goodrich	United States
Matt Humberstone	University of Tennessee	United States
Matt Triplett	U.S. Army	United States
Matthew Daigle	UC Santa Cruz / NASA Ames Research Center	United States
Matthew McGovern	NAVAIR	United States
Mattia Vismara	Politecnico di Torino	Italy
Mauricio Hartmann	Embraer	Brazil
Meera Venkatesh	General Atomics	United States
Mekogue Dongue Lucrece Urielle	Politecnico di Torino	Italy
Michael Denton	National Instruments	United States
Michael Pecht	University of Maryland / CALCE	United States
Michael Roemer	Impact Technologies	United States
Michael Sharp	University of Tennessee	United States
Mike Sudolsky	Boeing	United States
Morris Hornbuckle	DRS TEM	United States
Moty Klein	R.K. Diagnostics	Israel
Ms. Jeet Thakker	Global Technology Connection	United States
Nagesh Janapala	Stanford University	United States
Nam-Ho Kim	University of Florida	United States
Nars Guzman	Cal State University of Fullerton	United States
Nathan Bolander	Sentient Corporation	United States
Neal Snooke	Aberystwyth University	United Kingdom
Neil Eklund	GE	United States
Nicholas Propes	BAE Systems	United States
Nick Frankle	Frontier Technology	United States
Nikhil Vichare	Dell	United States
Ole J. Mengshoel	Carnegie Mellon Silicon Valley	United States
Onome Scott-Emuakpor	NRC/AFRL	United States
Pastorelli Stefano	Politecnico di Torino	Italy
Paul Leser	NCSU	United States
Paul Maier	Technische Universität München	Germany
Pavle Boškoski	Jožef Stefan Institute	Slovenia
Peter Bunus	Uptime Solutions AB	Sweden
Peter Sandborn	University of Maryland / CALCE	United States
Phil Dussault	U.S. Army RDECOM AMRDEC	United States
Phil Hammerand	John Deere	United States
Philip Wysocki	ASRC Aerospace / NASA Ames Research Center	United States
Pierluigi Pisu	Clemson University	United States
Piero P. Bonissone	GE	United States
Praneet Menon	Goodrich	United States
Raj Bharadwaj	Honeywell	United States
Randy Bickford	Expert Microsystems	United States
Ravi Kapadia	General Atomics	United States
Ravi Patankar	Honeywell	United States

Ravi Rajamani	Pratt & Whitney	United States
Rebecca Oostdyk	ASRC Aerospace / NASA Kennedy Space Center	United States
Rena Fish	QTEC	United States
Renata Klein	R.K. Diagnostics	Israel
rich miller	OGI	United States
Richard A. Di Lorenzo	Defense Acquisition University Mid-West	United States
Robert Mah	NASA Ames Research Center	United States
Roxane Rose	Executivevents	United States
Ruoyu Li	University of Illinois - Chicago	United States
Ryan Lowe	Auburn University	United States
Ryan Mackey	NASA JPL	United States
Sankalita Saha	MCT / NASA Ames Research Center	United States
Sankaran Mahadevan	Vanderbilt University	United States
Scott Clements	Lockheed Martin Aeronautics	United States
Scott Farner	Boeing	United States
Scott Forney	General Atomics	United States
Scott Poll	NASA Ames Research Center	United States
Serdar Uckun	PARC	United States
Seth Kessler	Metis Design Corporation	United States
Seungkoo Lee	Global Technology Connection	United States
Shankar Sankararaman	Vanderbilt University	United States
Sonia Vohnout	Ridgetop Group	United States
Sreerupa Das	Lockheed Martin	United States
Stefan Herzog	Lockheed Martin	United States
Stephane Gagne	Asahi Kasei America, Inc.	United States
Stephanie Benson	Ingersoll Rand	United States
Stephanie L. Weeden-Wright	Vanderbilt University	United States
Stephen Engel	Northrop Grumman	United States
Stephen Jacklin	NASA Ames Research Center	United States
Stephen Smith	Moog	United States
Steve O'Flarity	Pratt & Whitney	United States
Steven Arnold	NASA Glenn Research Center	United States
Sylvain Letourneau	National Research Council	Canada
Thomas Postma	FRCSE/ISSC	United States
Tim Downing	General Atomics	United States
Tim Felke	Honeywell	United States
Tim Wilmering	Boeing	United States
Tolga Kurtoglu	MCT / NASA Ames Research Center	United States
Tom Dresch	BAE Systems	United States
Tom Erickson	RAM Engineering	United States
Tom Mooney	GE	United States
Tom Stewart	SUNY Albany	United States
Tony Kopacz	General Atomics	United States
Wes Hines	University of Tennessee	United States
Wojtek Przytula	HRL Laboratories	United States
Xiang Li	Singapore Institute of Manufacturing Technology	Singapore
Xuefei Guan	Clarkson University	United States
Yasmine Rosunally	University of Greenwich	United Kingdom
Yongming Liu	Clarkson University	United States
Yvonne Lopez	Executivevents	United States
