On behalf of the Prognostics and Health Management (PHM) Society we are soliciting posters for a special student poster session at the **3<sup>rd</sup> European Conference of the PHM Society, July 5–8, 2016, in Bilbao, Spain**. Posters are intended for student authors and participants to engage in discussion about their work and provide an opportunity to presents late-breaking results, ongoing research, or works in progress. Poster session will be open to both PHM and SHM attendees thereby getting a much wider audience for students' research work. Additionally authors will have the opportunity to publish a technical brief based on the content of the poster as part of the Proceedings of PHME'16. Topics of interest for submissions include, but are not restricted to, the following:

- Prognostics system design and engineering
- Prognostics sensors and detection
- Physics of failure prognostics
- Asset health management
- Structural health management
- Prognostics for electronics
- Diagnosis and fault isolation methods
- Data-driven and model-based prognostics
- Condition-based maintenance technologies
- Standards and methodologies
- Fault-adaptive control methods
- Return-on-investment analysis
- Deployed applications and success stories

**Submission Instructions**
